WARNED!

THE LAWYER—
Q.—How many times a day do you lift the typewriter carriage to see what you are doing?
A.—I don't know.
Q.—How many times a day do you lift the typewriter carriage to see what you are doing?
A.—I don't know.
Q.—Have you any idea?
A.—No.
Q.—Five times?
A.—No, more than that.
Q.—100 times?
A.—More than that, I think.
Q.—Two hundred times?
A.—About that, I should think.
Q.—How much does the carriage weigh?
A.—I don't know.

Q.—Then that would average for 300 working days about 30,000 pounds? 15 tons. Think of it?
A.—(A long sigh) I suppose so.
Q.—Why don't you get an Underwood Typewriter with Visible Writing, no carriage to lift, no swinging the platen, work in full sight? All evident advantages over the old way, as you can see.

General O'Grady Haly Considers Troops For South Africa Are Excellent.

Thirty One Canadians in Constabulary Have Died Since Last March.

Parliament Will Be Asked to Retire Some of the Judges.

From Our Own Correspondent.

Ottawa, Ont., Jan. 17.—Gen. O'Grady Haly returned today from Halifax, where he has been inspecting the Second Canadian Mounted Rifles. The General was more than pleased with the appearance of the men. They compared most favorably with any troops he had ever seen. The transport Victorian with the remaining squadrons of the Rifles under Colonel Evans, will sail for South Africa tomorrow week.

Since the department of the Canadian contingent numbering 1,200 of South African Constabulary for Capetown, last March, 31 Canadian members of the force have died.

Sir Wilfrid Laurier still keeps to his residence on account of indisposition.

It is said that Col. Donaldson, for 25 years secretary of the Dominion Artillery association, will resign that office at the coming annual meeting.

The Yukon council has sent a memorial to the government containing a formidable list of requests including representation in the Senate.

Parliament will be asked to retire some of the present judiciary, who owing to old age or deafness and infirmities are considered unfit to continue to sit.

FISHERIES COMMISSION.

First Meeting Will be Held in Westminster, January 28.

Westminster, Jan. 17.—(Special.)—The Fisheries commission will meet first here on January 28 and 29. Prof. Thomsen is expected to arrive tomorrow.

The new section dredge King Edward, which has been operating on the sand-bar opposite the city, has made good progress, and leaves shortly to improve the approach to the summer landing at Chilliwack. This is particularly necessary owing to the low water season.

BOUNDARY OUTPUT.

Shipments Light Owing to Alterations at Granby Smelter.

Phoenix, Jan. 17.—(Special.)—Owing to the fact that the Granby smelter closed down six days to connect up two new furnaces, ore shipments from Boundary for this year have been light. The tonnage for January to date is as follows:

Granby mines, 6,247 tons; Mother Lode, 4,110 tons; Winnipeg, 80 tons; total, 10,437 tons.
During the same period the Granby smelter treated 6,035 tons of ore and the Mother Lode smelter, 6,870 tons.

BANK CLEARINGS.

Report for Week of Principal Canadian Cities.

New York, Jan. 17.—The following are some of the weekly clearings as compiled by Bradstreet for the week ending January 16, with percentages of increase and decrease, as compared with the corresponding week last year: Montreal, \$17,622,600; increase 4 per cent. Winnipeg, \$3,180,064; increase 78.4 per cent. Vancouver, \$787,118; increase 2.2 per cent. St. John, N. B., \$935,180; increase 1.7 per cent. Quebec, \$1,254,080; increase, \$14,867,100; increase 29.1 per cent. Halifax, \$1,962,524; increase 32.2 per cent. Hamilton, \$867,182; increase 8.5 per cent. Victoria, \$637,453; decrease 5.1 per cent. Ottawa, \$1,575,552.

PUINCE HENRY.

Arranging For His Entertainment in the United States.

Washington, Jan. 17.—Formalities to be followed on the occasion of the visit of Prince Henry occupied the attention of the cabinet today. Proceedings in the case of the visits of the Prince of Wales and the Grand Duke Alexis of Russia have been carefully looked up, and carefully followed where applicable. When the Prince reaches Washington, he becomes the guest of the German ambassador. According to precedent it will be the duty of the President to call upon the President, who will return the visit. A dinner will be given at the White House in the Prince's honor.

There is little doubt that the Prince will be able to accept some of the invitations tendered by various cities. The committee will arrange a programme which will take the visitor as far west as St. Louis. The state department has been notified that the Prince's visit will last only 16 days in all, as he will sail for Germany on the Columbia on March 8.

GERMAN DUEL.

Prominent Official Badly Wounded as Result of Scandal.

Berlin, Jan. 17.—Fresh material for the duelling controversy has been afforded by the von Bennigsen-Falkenhagen meeting in the Emperor's hunting park at Springe, near Hannover, yesterday. In which von Bennigsen, the local governor of the Springe, was probably fatally wounded by Falkenhagen, who is a large lessee of crown lands. The affair has reference to the wife of Governor von Bennigsen.

Several gentlemen of high position in the town of Springe, having decided at the club that the governor ought to be informed of the gossip concerning his wife, in which they considered there was ample grounds for a duel, presented the matter to von Bennigsen, who challenged Falkenhagen. A meeting was arranged and Falkenhagen fired. At the count of "One" von Bennigsen fell without firing once at his adversary.

The governor's aged father, Rudolph von Bennigsen, one of the founders of the National Liberal party and long a noted leader in the Reichstag, arrived on the field soon after, accompanied by his second son, who is the governor of German New Guinea, and brought the wounded man away.

CANADIAN FAILURES.

Large Decrease for Week as Compared With Last Year.

New York, Jan. 17.—The failures for the week in Canada were 37, against 43 for same week of last year.

C. P. R. RECEIPTS.

For the Week They Show Large Increase Over Last Year.

Montreal, Jan. 17.—C. P. R. traffic receipts for the week ending January 14 were \$627,000, compared with \$459,000 for the same week last year.

DIED SUDDENLY.

Mrs. Holden of Sunderland Found Dead in Bed.

Sunderland, Ont., Jan. 17.—Mrs. C. P. Holden, wife of a furniture dealer from Vella, was found dead in bed this morning at the home of her brother, Thos. Morrison, near here.

RAILWAY MAN KILLED.

Knocked Down and Fatally Crushed While Coupling Cars at Revelstoke.

Revelstoke, Jan. 17.—(Special.)—A man named Stevens belonging to Golden was shunted down in the yard here while coupling a Pullman passenger car and had his leg crushed. He died at Glacier while on the way to Golden hospital.

To Erect a Shingle Mill

Hastings Company Intend to Build Near Vancouver—Loggers Association.

Members of the Japanese Union Have Trouble About the Dues.

From Our Own Correspondent.

Vancouver, Jan. 17.—The Hastings Shingle Mill company are to erect another mill near Vancouver, probably at Coal Harbor. It will be the largest mill on the Canadian coast, and will cost \$50,000.

The Coast Loggers' association was organized today, when by-laws and regulations were adopted. The association will ask the provincial government to appoint official sealers and will try to have the law prohibiting the exportation of cedar logs repealed. Japs are cutting the cedar of the naval reserve near Barnet for shingle bolts. J. Howie, who lives at Barnet, stated today that he had notified the naval authorities, regarding the action of the Japanese.

There appears to be some trouble in the Japanese Fishermen's Labor and Benevolent union. It is understood that some 300 members out of 3,500 have refused to pay their dues, owing to dissatisfaction with the president of the union—Mr. Shimura—who is now in Japan. These discontented members make grave charges and have caused much discontent in the union. One representative Japanese informed the Colonist correspondent this morning that it was not likely there would be any union next season, unless there was an entire change of officers. The present officers are: President Shimura, Vice-President Oda, Treasurer Suzuki and Secretary Mikiuni. The members pay \$3 each, and this entitles them to sick benefits. This sum is all handled by the officers and amounts in the aggregate to about \$9,000. Out of this amount a doctor is paid \$1,000 a year and white nurses \$600 a year each, and the president \$600 a year.

Arrangements for the purchase of the Cambie street grounds for a park will be effected early next week. For this purpose \$200 will be borrowed, \$20,000 for the purchase of the grounds and \$5,000 for improvements.

The Board of Trade will meet Prof. Prince on his arrival here and discuss the deep sea fishing situation with him. A score of citizens, including several police officers, are discussing the project of colonizing Buckley valley. At a meeting last night delegates were appointed to wait upon the local government regarding possible concessions to would-be settlers.

SAVINGS STAMPS.

Ottawa, Jan. 17.—At the annual meeting of the Associated Charities today a deputation was appointed to wait on the Postmaster-General to urge the adoption of a new scheme to encourage saving among the people. The plan proposed is to issue cards containing 20 squares, and when these are filled with five cent stamps the card to be accepted at any postoffice savings bank as a deposit of one dollar.

DUTCH PREMIER AS PEACEMAKER

Report That He Has Tried Informally to Negotiate For Boers.

London, Jan. 17.—Renter's Telegram company has received the following despatch from Amsterdam: "According to trustworthy information, Dr. Kuyper, the Dutch premier, recently intimated to the Boer delegates the desirability, in view of Lord Rosebery's speech at Chesterfield, of their giving some intimation to the British government of the basis upon which they would entertain peace negotiations. Dr. Kuyper pointed out the improbability of any of the great powers intervening in South Africa in the near future, and suggested that he be allowed informally to sound his friends in London, in the hope of a semi-official response. The Dutch premier accordingly met Abraham Fischer, the leader of the Boer delegates and others, at Brussels, where a long conference was held, after which Dr. Kuyper proceeded to London. The result of his visit, if any has been attained is not yet known."

It is understood that Dr. Kuyper distinctly assured the Boers that Holland, under no circumstances, would act as an intermediary. Dr. Kuyper, the representative in Europe of the Transvaal, is expected shortly at the Hague."

HAD BEEN WARNED.

Late Hon. R. R. Dohell's Physicians Had Forbidden Him to Ride.

Toronto, Ont., Jan. 17.—The Evening Telegram's London cable says: "It is stated that physicians attending the late R. R. Dohell had given him strict orders to abstain from equestrian exercise, and it is supposed that a motor car frightened the horse and excited the rider, who was suffering from heart disease, and that he fell from the saddle. The horse did not fall. Lord Strathcona, who attended the funeral, caught cold, and is now slightly indisposed."

Fight Is A Fizzle

Much Talked About Sharkey Maher Meeting Stopped in Third Round.

Men Arrested Before Contest and Promise Not to Break Law.

Crowd at Ringside Yells "Fake" and Referee Says "No Contest."

Philadelphia, Jan. 17.—Tom Sharkey and Peter Maher, the pugilists, and Jas. M. McFarland, an official of the Industrial Athletic club, under the auspices of which organization the Sharkey-Maher fight took place tonight, were arrested late this afternoon on warrants charging them with conspiracy to commit a breach of the peace. They were held in \$5,000 bonds to keep the peace and appear in court tomorrow morning. Bail was furnished.

The warrants were sworn out by S. J. D. Barnitz, a citizen who represented the Law and Order society of this city. More than a dozen witnesses were subpoenaed, most of them sporting writers on Philadelphia and New York newspapers. About a half dozen of the witnesses were examined and the magistrate considered that sufficient evidence was elicited to warrant him in holding the prisoners. The men promised that there would be no knock-out, no violence and no infraction of the state laws regarding prize fights, and they would engage only in a sparring contest. This promise was accepted by the magistrate and the bail was fixed at \$5,000 for the three men. He said if they lived up to the promises they will be discharged on their appearance in court tomorrow.

It was 9:15 before the first of the preliminaries began, and there was just enough pepper in the opening bouts to whet the appetites of the crowd for the big fellows.

There was a tiresome wait of 40 minutes. The fighters insisted on seeing their money before entering the ring. It was 11:40 when Sharkey made his appearance. He was followed a moment later by Maher. Both men were greeted with tremendous applause. Seated close to the ring were Champion James J. Jeffries and former champion Robert Fitzsimmons. Little time was wasted in formalities.

Round 1.—The men sparred for a few seconds, Sharkey being the first to lead. Maher rushed to a clinch, but it was evident the men intended to obey the mandates of the court, for they merely tapped each other. There were loud cries of "Take 'em off!" and many of the spectators started to leave the building. There was not a blow in the first round hard enough to jar the teeth of a featherweight. When the men took their corners, the hall rang with hisses and cries of "Take 'em off!" and "Take 'em off!"

Round 2.—After fiddling for a moment, Maher led a light left on Sharkey's stomach and they clinched. Sharkey slapped Maher on the face with the open glove and the two men wrestled over the top. Sharkey led his right and Maher ducked into a light left upper cut. The men continued their love tapping and the crowd hissed. Sharkey landed a light left and Maher countered with a good stiff over the heart. Sharkey landed his open glove on Maher's face, but the blow was not hard enough to shake Pete's head. The men were dancing about the ring when the gong sounded.

Round 3.—Sharkey led for the wind, but fell short, and Peter slapped him on the face. Peter landed a light right on Sharkey's ribs and received a gentle tap on the back of the neck, as he ducked. Maher led for the head and the men clinched and wrestled. Sharkey tapped Maher on the head and got a light blow on the stomach in return. In the middle of the round Referee Knap walked to the side of the ring and said:

"Gentlemen, I was asked to referee a contest; this is no contest."

The men took to their corners and Sharkey attempted to make a speech, but the crowd became so boisterous that his words were lost among the catcalls and hisses. The contest was then abandoned.

SAVINGS STAMPS.

Ottawa, Jan. 17.—At the annual meeting of the Associated Charities today a deputation was appointed to wait on the Postmaster-General to urge the adoption of a new scheme to encourage saving among the people. The plan proposed is to issue cards containing 20 squares, and when these are filled with five cent stamps the card to be accepted at any postoffice savings bank as a deposit of one dollar.

Write and See

Don't Let Prejudice Keep You From Getting Well.

NO MONEY IS WANTED

Simply write a postal for the book that applies to your case. See what I have to say. You can't know too much about ways to get well.

My way is not less effective because I tell you about it. There are millions of cases which nothing else can cure. How can I reach them? By advertising? I will send you the book also an order on your druggist for six bottles Dr. Shoop's Restorative. I will tell him to let you test it for a month at my risk. If it cures you, the cost will be \$5.50. If it fails, I will pay him myself.

The book will tell you how my Restorative strengthens the inside nerves. It brings back the power that operates the vital organs. My book will prove that no other way can make those organs strong.

No matter what your doubts. Remember that my method is unknown to you, while I spent a lifetime on it. Remember that only the cured need pay. Won't you write a postal to learn what treatment makes such an offer possible?

Simply state book No. 1 on Dyspepsia, which book you book No. 2 on the Heart, want, and ad-book No. 3 on the Kidneys, dress Dr. Shoop, Book No. 4 for Women, Box 17 Racine, Wis. Book No. 5 on Men's Health, Book No. 6 on Rheumatism.

FRENCH TRADE.

Report of Export and Import Trade For the Year.

Paris, Jan. 17.—Official returns just issued show that the imports of France in 1961 were valued at 4,714,548,000 francs, compared with 4,717,902,000 francs in 1960, and that exports totalled 4,166,165,000 francs compared with 4,108,620,000 francs in 1960.

WALLA WALLA WRECK.

Body of One of the Victims Washed Ashore.

San Francisco, Cal., Jan. 17.—The body of one of the cabin passengers of the lost steamer Walla Walla was recovered from the sea on Wednesday morning by the steamer Newburg. It was found, supported by a life-preserver off the mouth of the Klamath river, 35 miles from where the Walla Walla was wrecked. It has been brought to this city and identified as that of J. A. Gallagher, who represented a St. Louis advertising firm.

BOTTLA TO BLAME.

Why Kitchener Was Forced to Have Concentration Camps.

London, Jan. 17.—A blue book issued this morning on the subject of concentration camps in South Africa, contains further detailed explanations from Lord Milner, the British high commissioner, and Lord Kitchener as to the causes of the excessive death rate in the camps, and refutation of the charges of cruelty. Lord Kitchener emphatically denies Commander Schalkenbach's charges of forcible removal and exposure of pregnant women and other accusations of rough and cruel treatment, and says: "I offered both to leave the families and relatives of fighting burghers in undisturbed possession of their farms if both would agree to spare the farms of the families of surrendered burghers. Both emphatically refused, saying: 'I am entitled to force every man to join, and if they do not join, to confiscate their property and leave their families on the veldt.'"

The blue book gives its statistics for the month of December last when there were 17,047 inmates of the camps and 2,280 deaths, of which number 1,767 were children. The trial of Dr. Krause, the former governor of Johannesburg, on the charge of instigating Cornelius Broekman, the public prosecutor of Johannesburg, who was executed by the British authorities in South Africa, to murder John Douglas Foster, an English lawyer, who was on the staff of Lord Roberts, opened at Old Bailey today. If the prisoner and his friends had been suspected of a design to explode dynamite in the court, the precautions against the admission of unauthorized persons could not have been more stringent. Spectators were closely scrutinized, and compelled to produce a card of admission. The prisoner pleaded not guilty.

Hamilton, Bermuda, Jan. 17.—The British transport Montrose has arrived here from Cape Town with another detachment of Boer prisoners.

If You Could Look

into the future and see the condition to which your cough, if neglected, will bring you, you would seek relief at once—and that naturally would be through

Pardonably Proud Poultry

The Exhibition of the Victoria Poultry Association a Great Success.

Completed List of Prize Winners—Election of Officers—Tonight.

The poultry show of the Victoria Poultry and Pet Stock association, in the old Salvation Army hall, on Yates street, which is the first affair of its kind held in the city for seven years, is an unequalled success, and it will undoubtedly be repeated next year, on a much larger scale. The most popular exhibit is the Buff Orpingtons. At the recent agricultural exhibition there was only one exhibit and in the present show there are 31 exhibits in this class.

The attendance yesterday was much larger than on the previous days, and all were well pleased with the superior class of birds exhibited. Tonight the association will hold their annual meeting and elect officers.

The following is the result of yesterday's judging, completing the prize list, first portion of which appeared in yesterday's Colonist:

BLACK LANGSHANS.
Cockerel—Quick Bros. 1; W. Towler, Vancouver. 2; Hen—Quick Bros. 1; Quick Bros. 2; Pullet—P. Appleton, Victoria. 1; P. Appleton. 2; Pullet—J. D. Richards, highly commended. Cockerel—J. D. Richards, highly commended.

IN MEMORIAM.
Violets for Anniversary of Death of Queen Victoria.

Toronto, Jan. 17.—Great preparations are being made by florists to supply violets to be worn January 22, the anniversary of the Queen's death.

OFFICIAN IN TROUBLE.
Charged With Practising Surgery Without Being Registered.

Vancouver, B. C., Jan. 17.—(Special.)—The Medical Association has entered action against Doctor McKay Gordon, of the Boston Optical Co., here for practicing to practise surgery without being registered pursuant to the B. C. Medical act. The case will be heard in the police court tomorrow.

SHOT HIS ENEMY.
Halifax Man Wounds Another in a Street Row.

Halifax, Jan. 17.—George Gillon and Archibald Graves of Abertown, have been bad friends for some time. Today they met in the street, the quarrel was renewed, but the men were separated. Graves was drunk. He started after Gillon, who pulled a revolver and shot Graves in the head. Gillon gave himself up to the police.

WILL ARREST LYNCH.
If Irish Traitor Lands in Great Britain.

London, Jan. 17.—In the House of Commons today A. J. Balfour, government leader, said that Germany had not asked for assurances in regard to the reference by Von Bulow to the utterances of Mr. Chamberlain at Edinburgh. Lord Lansdowne, in unofficial conversation, said it had been pointed out to the German ambassador that Mr. Chamberlain made no charges of barbarity against the German army.

Mr. Balfour said Col. Lynch, M. P. for Galway, would be arrested immediately after landing on British soil.

Friendly Advice.—Yes, said the Fairy Prince, you may have whatever you want for the Fortunate present. I will choose, said the Fortunate person, either a wife or an automobile. How foolish! exclaimed the Fairy Prince. Why don't you select something that you can manage?—Baltimore American.

ELECTRIC WAVES. A CANADIAN OFFICER.

Professor Fleming Speaks of Possibilities of Marconi's Discovery. Major Dobell Who Commanded Fusiliers at Evacuation of Pekin.

Prof. Fleming, lecturing on "Waves," before the Royal Institution, in London on January 9 referred to Marconi's trans-Atlantic communication. He had been comparing light waves with electric waves, and found they were both waves in the ether, which bent round obstacles they encountered. They traveled at about the same speed of 186,000 miles a second. Marconi's trans-Atlantic waves were about 1,000 feet long, which was not very small, compared with the obstacle they had to encounter, that is, the hill of water waves, and he believed that the waves, which he calculated was about 110 miles above a straight line, joining the Lizard and Newfoundland. The bending required, therefore, was not great, compared with the distance, being comparatively a wave 1-100 of an inch in length, bending round an obstacle 1-5 of an inch high. It was an interesting question, continued the lecturer, whether it was possible to send a message by a wave around the world. He did not presume to answer the question, but he suggested that it was an interesting possibility. He had already shown that water is opaque, as the Hawaiian waves, and he believed that the upper strata of air being highly rarified was also opaque to these waves. He imagined that by internal reflection between these two opaque a beam of rays could be sent into the air, and that the upper strata of air being highly rarified was strong enough, it could be made to pass any distance, sandwiched between them, independently of the curvature of the earth.

STOPS THE COUGH AND WORKS OFF THE COLD.
Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cents.

Manager Jamieson has been offered a concert on or about February 18, by Lilian Nordica, provided a sufficient subscription list can be raised. Efforts are also being made to have a suitable list in Vancouver. Should both be satisfactory within a week from date, contracts will likely be made for both cities. If not, Mme. Nordica will sing in Vancouver city has the largest list, provided, of course, that it is large enough. Nordica needs no introduction, as her reputation as a member of Maurice Grau's Metropolitan Opera Co. and with other organizations has been widely wide. Her tour opened in Scranton, Pa., several weeks ago, when she sang to over five thousand people, and her business since has been uniformly good. A list has been placed in the Victoria Book & Stationery Store, and those who wish to have her visit Victoria are requested to call there at once and select seats and sign their names. The prices will have to be \$3.00, \$2.50, \$2.00 and \$1.50 in order to make up the amount necessary to secure her, which is \$1,500.

She has kissed me, and then he proposed. He—Man's usual fate. She—How? He—On the moral reefs. Philadelpha. He—

From Montreal Star.

In the course of some correspondence made public by the India office, relating to the evacuation of the city of Pekin by the British troops, it is stated that the British flag was hauled down at 2 o'clock on the 14th of September last, and that a detachment of the Royal Welsh Fusiliers, under command of Major Dobell, who was guarding the Chinese palace, was saluted by the Chinese troops as it marched out of the city.

Major Dobell here referred to is a Canadian officer in the Imperial service, and one of the late Hon. R. B. Dobell, of Quebec. He is a graduate of the Royal Military college, Kingston, and one of the brightest of the many brilliant officers Canada has given to the Imperial service.

When the war in South Africa broke out Major Dobell was serving with his regiment in India. He at once applied for leave of absence, and when the Royal Canadian regiment went to South Africa he was attached to it for special duty. During the months the regiment was stationed at Belmont, Major Dobell acted as chief of staff for Col. Picher in many of that officer's raids into the Free State and the rebel districts of Cape Colony, from the camp at Belmont.

When, just previous to Lord Roberts' famous march around the flanks of the Boers, the position at Magersfontein, the mounted infantry column was gathered together at Richmond under command of General, then Col. Broadwood, Major Dobell was given an important position on the staff of Col. Allison, with whom he took part in the famous ride of General French to the relief of Kimberley. Later, in the war, he was given an independent mounted infantry command and did splendid service during the march of the army to Pretoria.

When the trouble with China broke out, Major Dobell's regiment was ordered from India to China and the major responded at once to a hurried call to rejoin the regiment. He served through the Chinese trouble and was given command of the British troops, which guarded the Emperor's palace at Pekin, until the foreign troops by agreement evacuated the city in September last.

To prove to you that Nordica's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, we manufacturers have guaranteed it. So test it on your own piles. You can use it or get your money back if not cured. Six o box, at dealers or EDWARDS, BATES & CO., Toronto, Address.

and one of the Semi-Weekly editions.
No advertisement charged to account for
less than one dollar.

THE LATE CHIEF JUSTICE.

Very great regret will be felt all over
British Columbia at the untimely death
of the late Chief Justice McCall. He
was only in the 48th year of his age,
and having been a man of more than
ordinary talent he should have had, in
the natural order of things, many years
of great usefulness before him. His
mind was of a peculiar order, he was
more than ordinarily quick in seeing the
force of legal questions and possessed
the faculty of reaching conclusions by a
mental short-cut, which is one of the
most invaluable traits in a jurist. Un-
doubtedly he was one of the brightest
and ablest men connected with the ad-
ministration of Justice in British Col-
umbia, and we might go further and say
of Canada. It is therefore a matter of
profound regret that the province has
been deprived of the services of one so
richly endowed by nature, and occupying
a position where his great talents
might have been, under other circum-
stances, been employed so conspicuously
for the public benefit.

Much sympathy will be felt for his
widow in her sudden bereavement.

THE VOICE OF THE WEST.

In the Colonist of January 4, occurred
this reference to the Victoria vacancy
in the House of Commons: "Our rep-
resentative should stand for something
more than party affiliations. He should
be sent to Ottawa to speak with the
voice of this Far West. He should rep-
resent the great principle involved in
what we have called a Western Policy." We
see no reason to alter a syllable of
this, and we believe that in advocating
the election of Mr. Barnard, we are sup-
porting a candidate, who, if elected,
will to the utmost of his power, and
untrammeled by the desire of federal
patronage, give expression to what is
referred to in the extract quoted as the
voice of this Far West. What is that
voice? It can be heard on every side.
It is a demand that the Far West shall
receive due consideration at the hands
of the rest of the Dominion. For almost
a generation the people of this province
have been contributing more per head
than those of any other province to-
wards the revenues of Canada. For a
time it was contended that the expendi-
ture on account of the Canadian Pacific
railway afforded a reason why this
excessive contribution should not be re-
garded as entitling the province to greater
consideration than it was receiving
at Ottawa, but as has been fully shown
by the Memorial of the provincial gov-
ernment to the federal government, this
claim can no longer be advanced, and
yet not the slightest disposition has been
exhibited to compensate the province in
any way. The voice of this Far West,
as uttered in stores, offices, on the floors
of the legislature and in the public press,
has been in the nature of a protest
against the continuance of this injustice.
The Liberal representatives of this province
in Parliament, however much they
may be in sympathy with the justice of
this claim, have not taken occasion at
any time to urge its justice upon the
attention of the Parliament and people
of Canada, and we have held and
still hold that, seeing it is hopeless to
look to the members, who claim to have
the ear of the government for the cham-
pionship of our rights, it is imperative
to seize any occasion that may be offered
to send a man to Parliament, who
will undertake as best he can to present
the case of his constituents and his province
in this regard.

The people of British Columbia, ir-
respective of party, believe the time to
be at hand, when a strong effort ought
to be made by the provincial and federal
governments, acting in concert, to open
up British Columbia to colonization and

Pellew-Harvey, Bryant & Gilman
MINING ENGINEERS AND METALLURGISTS
Ores Analyzed, Control Assays,
Properties examined and sampled.
Trial Shipments, Smelter Tests.
Victoria, Opposite Dr. Chas. Hotel.

investment. Out of six members of the
House of Commons the Liberals have
had four, and out of three senators one,
yet it is a fact, which the Hansard Re-
ports prove, that not one of these five
gentlemen has ever undertaken in his
place in Parliament to urge upon the
government the desirability of adopting
such a policy. We have said, and we
insist, that the voice of the people in re-
lation to this highly important matter
ought to find expression on the floors of
Parliament.

The inhabitants of this part of the
Dominion look eastward and see what
is transpiring on the Atlantic Ocean.
They realize that an era of progress
has set in and they are desirous of
sharing in it. They have observed with
what assiduity the government of Can-
ada is devoting itself to everything,
which seems calculated to build up the
extreme East. Railways are being sub-
sidized, lines of steamships are being
projected with government aid. Against
all this the people of this Far West
have raised no protest, but they are
asking if the time has not come when
something of the same nature should
be done for the Pacific seaboard. We
have contended and shall continue to
contend, that British Columbia needs
some one on the floor of Parliament to
express the sentiments of her people in
this connection.

Such are some of the utterances of
the "voice of this Far West" which we
desire to see expressed, and holding such
views, and believing that Mr. Barnard
will give expression to them, if elected,
we support him most heartily in the
present contest.

AN EXPRESSION OF FEELING.

The very remarkable occurrence at
the opening of the British Parliament,
when those present at the delivery of
the King's speech applauded to the echo
the reference of His Majesty to the
humanity of our soldiers in South Africa,
has a deep significance. It was intended
by the brilliant company present as an
answer to the vile slanders which have
been so industriously circulated on the
Continent. At this distance we only
hear a slight murmur of the assault upon
the honor of our troops. The people of
the United Kingdom hear its full vol-
ume, and consequently the feeling of
indignation there is much more intense
than it possibly can be with us. There
will be much profound satisfaction all
over the Empire that those present in
the House of Lords refused to be gov-
erned by the precedent, which has come
down from time immemorial of receiving
the King's speech in silence, and gave
vent to their feelings in so marked a
manner. The phlegmatic manner in
which the British people receive all at-
tacks upon them from foreign quar-
ters has been attributed to indifference
and perhaps by some of our critics to
cowardice. The demonstration referred
to was simply an assertion, by a large
and representative body of the British
people, that they regard foreign criti-
cisms sufficiently answered by an ex-
pression at home of confidence in the
humanity as well as in the valor of our
soldiers. At the same time it indicates
a depth of feeling which the Continental
peoples would be wise not to ignore.

A LIBERAL FLURRY.

Mr. Joseph Martin announced yester-
day that he would be a candidate for the
representation in the House of Com-
mons. While he did not make an un-
qualified statement to this effect, the
only condition, he said, upon which he
would remain out of the field was such
that his candidature was apparently in-
evitable. He said that unless the Victo-
ria Liberals elected a delegation to the
Vancouver convention, he would un-
questionably take the field. On Thurs-
day evening a meeting of the local Lib-
eral Executive was held, and although
Mr. Martin's ultimatum was before it,
the decision reached was not to comply
with it. A prominent member of
that organization said that to comply
with Mr. Martin's ultimatum would be
to hand the control of Victoria Liberalism
over to him, and that it would be
better to be defeated than to do such
a thing as that. A warm friend of Mr.
Martin said that the latter felt that the
time had come when it would have to be
decided whether he was to be recognized
by the Liberal party. The refusal to
appoint a delegation to Vancouver was
reached in a spirit of hostility to him,
and he therefore proposed to appeal from
the Liberal managers to the rank and file
of the party. If they rejected him, he
would understand it as a notice that his
active participation in politics was no
longer desired. The managers of the
Liberal organization say that they can-
not permit any one to come here from
Vancouver and dictate to them. Mr.
Martin's friends say that he was invited
to British Columbia in the first instance
to fight battles for the Liberals here,
that they were incapable of fighting for
themselves, and that therefore he stands
in a different position to any one else.
In this really delicious controversy it
would not be seemly for the Colonist
to intrude, but it may venture the sug-
gestion that in his own opinion Mr.
Martin must be "aut Caesar, aut nul-
lus."

Late last night it developed that Mr.
Martin was Caesar. The local managers
of the Liberals played the role of coon to
Mr. Martin's Davy Crockett, and har-
mony once more reigns. The Victoria
Lamb has lain down with the Victo-
rian lion, but the lamb is invisible. It
has been swallowed.

The last census shows that the num-
ber of Indians in Canada is increasing.
It speaks well for the administration of
Indian affairs in the Dominion that this
should be the case, for we all know
that in the United States a constant
decrease is going on. There seems to be
a probability that the Canadian Indians
may, in the course of a few generations,
become for the most part fully in touch
with the ways of modern civilization
and take their part in the affairs of the
community, just as white people do.
There are some mistaken notions abroad
as to the diminution of the Indian popu-
lation. The older residents of the Pa-
cific Northwest claim that there has
been a great decrease here, and we sup-
pose that such must be the case. It is
open to question, however, if there has
been any great decrease in the number
of the Plains Indians, and such statis-
tics as are available go to show it to
be more than probable that there are
as many Indians in the Maritime Provinces
now as there were before white

people settled in the country. A some-
what well known writer, Dr. James
Hannay, claims to have established that
there has been no decrease whatever in
the number of Indians in the Maritime
Provinces. It is certain that the habits
of life of the Indians before the white
people came rendered anything like a
dense population entirely out of the
question.

The Times says that the Colonist
advocated the election of an independ-
ent. The Colonist never did anything
of the kind. It distinctly in so many
words said that it did not advocate the
election of an independent. What it
said it wanted was a man who would
not be deterred by considerations of
patronage from advocating the just
claims of this city and province. Mr.
Barnard is such a man.

LETTERS TO THE EDITOR.

PHYSICAL TRAINING.

Sir,—Mr. St. Clair, the public school phys-
ical instructor, challenges me or anyone
else to prove that the system of "physical
training," as practiced in the public schools
is a haphazard one, and further declares
that the system offered in its stead is the
"puppy show," or "toy soldier" system.
In the schools, but simply asks, if candi-
dates by myself, does not condemn or
reject the system of "physical training,"
employed by Mr. St. Clair in the schools,
but simply asks of candi-
dates were in favor of systematic instruc-
tion in drill similar to that imparted by
drill instructors in our volunteer regiments,
according to the Military Drill Book. Physi-
cal training, in my opinion, is not a haphazard
one, and further declares that the system
offered in its stead is the "puppy show,"
or "toy soldier" system. In the schools,
but simply asks, if candi-
dates by myself, does not condemn or
reject the system of "physical training,"
employed by Mr. St. Clair in the schools,
but simply asks of candi-
dates were in favor of systematic instruc-
tion in drill similar to that imparted by
drill instructors in our volunteer regiments,
according to the Military Drill Book. Physi-
cal training, in my opinion, is not a haphazard
one, and further declares that the system
offered in its stead is the "puppy show,"
or "toy soldier" system. In the schools,
but simply asks, if candi-
dates by myself, does not condemn or
reject the system of "physical training,"
employed by Mr. St. Clair in the schools,
but simply asks of candi-
dates were in favor of systematic instruc-
tion in drill similar to that imparted by
drill instructors in our volunteer regiments,
according to the Military Drill Book. Physi-
cal training, in my opinion, is not a haphazard
one, and further declares that the system
offered in its stead is the "puppy show,"

PEMBERTON & SON, 45 Fort Street

THE WEATHER.

Meteorological Office,
Victoria, Jan. 17-8 p.m.
53° N. 103° W.

The pressure is low over British Columbia and the Northwest provinces. The high barometer area has moved into Central and extended into Central Oregon and Washington. Rain has been general from the Columbia river to the districts bordering on the Straits and Sound. The movement of the high area caused fresh to strong southerly winds along the Straits of Juan De Fuca. The weather over the Pacific slope has been chiefly cloudy and cooler.

SOMETHING ABOUT FAITH CURES.

What a great variety of faith cures there must be. Some have faith in so-called divine healers, others in certain doctors and still others in the medicines they use. Every person who has tested Dr. Chase's Kidney-Liver Pills has faith in them, but faith or no faith they cure just the same, for they act directly and specifically on the kidneys, liver and bowels, and make these organs healthy, active and vigorous. Judging from enormous demand for these pills there must be hosts of people that have faith in them.

VICTORIA TIDES.

For the Month of January, 1902.

(Issued by the tidal survey branch of the Department of Marine and Fisheries, Ottawa.)

The time used is Pacific standard for the 120 meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The height is in feet and tenths of a foot.

POLICE COMMISSIONERS.

Chief of Police Revives His Suggestion for Police Patrol.

At a meeting of the police commissioners, the chief presented his report, detailing the work of the department, and suggesting the addition of a one-hour patrol. He stated the cost of clothing, including boots, to be \$70.20, compared with \$2,052.72 last year; back and express hire, \$192.25; total number of cases, 970, with 846 convictions. He recommended the addition of two large cells at the lock-up. Thos. Palmer, sergeant-detector, in his report, reviewed the work of his department for the year, and suggested that the addition of the extra detective be made permanent. The returns of property stolen, etc., exclusive of bicycles or chickens, were as follows: Property reported stolen or lost, \$6,322.75; stolen, \$3,385.25; lost or missing, \$2,937.50; recovered, \$2,941.75.

Another matter which came before the commissioners was a dispute between two of the police constables, arising out of the fact that one had ordered the other from his beat, and the other retaliated in the same manner. Words followed, and one of the duo wanted to fight; moreover, he used insulting language to his Scotch friend. For this the constable from John Bull's Isle was fined five dollars.

THE TRADERS AND LABOR COUNCIL MAKE A MISTAKE.

Mr. Gooderham Not Connected With the Manufacturers' Life Insurance Company.

Toronto, January 11.—The Vancouver Trades and Labor Council were in error, it seems, in boycotting the Manufacturers' Life Insurance Company in conjunction with the Gooderham interests in British Columbia. The mistake was caused by the fact that Mr. Gooderham was for a number of years President of the Company. About two years ago, however, he disposed of his interest in the Manufacturers' Life, and when the Company was amalgamated with the Temperance and General Life last year, the Hon. G. W. Ross was elected President of the united Companies. At present Mr. Gooderham is not on the Board, nor is he or any other of the Gooderham Syndicate in any way connected with the Company.

There is no doubt, of course, that in the face of these facts, the Union will withdraw the name of the Manufacturers' Life from the boycott, and remedy the harm done as far as possible.

A Growing Industry

Large Importations of Young Cattle by Ranchers of British Columbia.

Mr. G. H. Hadwen's Observations On His Recent Trip In the East.

G. H. Hadwen, secretary-treasurer of the Dairymen's and Live Stock association of British Columbia, has just returned from an extended business trip to the Eastern provinces. He has been absent since October 26, and in the interim has visited many of the principal cattle raising districts of the East. The principal object of his journey was to purchase pure-bred stock and range cattle to fill orders received by the association from principal stock breeders and ranchers, and as a result some 24,000 head will be added to the British Columbia herds. In all he bought 46 car loads, two of pure-bred stock and the remainder range cattle, and animals for fattening purposes. Of the 24,000 stock purchased 17,000 are for the Western Canada Ranching company at Ashcroft and Kamloops, of which Hon. J. Prentice, finance minister, is manager. A further 2,000 cars is now en route—22 for the Western Canada ranches, and two for the British Columbia Land and Investment company's farm at Ladner.

This trade is new in British Columbia, but in Manitoba and the Territories it has grown into an important industry, where it is a common thing to notice cars of live stock crossing each other at a siding, one loaded with young animals bound to the grazing lands of the great West, while the other is filled with fat cattle destined for the markets of Eastern Canada or Great Britain. In the prairie country the importation of stock is generally made in the early spring, just when the grass is coming up so that immediately on their arrival at their new ranges the young creatures find an abundance of succulent food.

When the trade has developed in this province the same method of importation has been adopted but in the present instance the weather conditions are so exceptionally favorable, there being no snow in the upper country, that the importers have no fear of the success of their venture, the only drawback, if it may be deemed one, being that the youngsters will have to put up with dry fodder, of which the Western Canadian Ranching company has an abundance.

Mr. Hadwen's purchases were made along the main line of the Canadian Pacific railway between Myrtle and Peterboro, Ontario, which is the centre of the cattle raising industry of that province. During his trip, Mr. Hadwen visited the Winter Fairs at Guelph, Ontario, and Amhurst, Nova Scotia, and was much impressed with what he saw. The fair at Guelph was attended by over 600 people, and the lectures on live and dead animals were crowded, in many instances it was found necessary to repeat them so anxious were the people for information. The exhibition building at Guelph is a two-story structure 400x100, and it has been decided to enlarge it and add an auditorium with a seating capacity of 1,000. During the exhibition addresses were delivered by Hon. S. J. P. Fisher, Minister of Agriculture, Premier Ross, of Ontario, Hon. John Dwyer, provincial Minister of Agriculture, and many other prominent men, nearly all of whom are authorities on agricultural subjects. The addresses were much appreciated as they were all practical lectures on agriculture.

One of the most striking features at Guelph was the poultry department, where every stage of poultry raising, from the hatching of the eggs to the marketing of the fowls, was demonstrated to attentive audiences. The dexterity of some of the pluckers was remarkable. One man caught, killed and plucked eight fowls in 14 minutes. The poultry industry is growing to enormous proportions in Ontario, and the Eastern provinces, the demand for export to Great Britain being greater than can be met, and consequently a great many farmers are devoting attention to this profitable branch of the business.

At Amhurst, Mr. Hadwen found a repetition of the scenes which he had witnessed at Guelph. The attendance was about the same and the same eagerness for knowledge was shown by the visitors. Mr. Hadwen says those winter fairs were a revelation to him, they were wonderful and proved beyond question that the interest in agricultural science is becoming general in the old provinces, and the importance of the farm and its capabilities for furnishing a profitable and agreeable occupation is rapidly forcing itself on the minds of the people.

He was delighted with a visit to the Guelph Agricultural college, which is in a flourishing condition and so crowded with students that it is necessary to add two new buildings to cost \$100,000. In addition to this Sir Wm. McDonald, of Montreal, who has endowed the annual training schools throughout the Dominion, has donated \$125,000 for the establishment of a School of Domestic Science, so that Guelph is rapidly becoming the fountain head of agricultural lore.

PINK EYE IN NELSON.

Epidemic Among the Horses Causes Great Inconvenience.

Nelson, Jan. 17.—(Special.)—A disease among horses commonly known as "pink eye" has made its appearance in Nelson in epidemic form. Dr. Armstrong, veterinarian, reports that he has treated about 30 cases. The disease is remarkable in that it usually makes its appearance every 10 years. It is not often fatal, though it incapacitates animals for work. It is said to have been first seen here in 1882, and in 1882 it was widespread, and in some of the larger cities it was almost impossible to keep the street cars in motion owing to the disableness of the equines from the effects of this disease.

The annual reports of the city engineer show that Nelson has 11½ miles of water pipe, and 850 houses connected with the water distribution system. There are 14 miles of sidewalks and \$82,791 has been spent on grading streets.

The report of the chief of the fire department shows that during 1901 the total damage from fires amounted to only \$1,397. Against this there was insurance for \$1,292. The largest loss at any one fire was \$1,078.

Building Inspector Little reports that buildings to the value of \$92,167 were erected in 1901.

LETTERS FROM TRIAL.

Grand Forks, B. C., Jan. 17.—Mrs. Anna Hamer alias the "Blue Goose" who was to have been sentenced to the police court today on a charge of procuring, jumped her bail early this morning and drove to Republic, Washington. She was accompanied by two companions. The trio on reaching Republic were arrested for the same charge, and quarantine maintained at the boundary line by the state authorities. It is probable they may be deported. If this is done Mrs. Hamer may yet receive punishment for inducing Mrs. Sism (alias) to come to Canada in order to lead an immoral life. Mrs. Hamer fled from her house while Jos. Taylor, a special constable, was on guard in the door. Taylor was arrested today for neglect of duty. His explanation was that he had fallen asleep. He was committed for trial.

SIMILKAMEEN VALLEY COAL

Report of the Company Upon the Property and Operations.

Nelson Miner, January 14th.

Following is the manager's report showing the condition of the Similkameen Valley Coal company, limited: The promoters of the Similkameen Valley Coal company did not ask the public to subscribe for their stock, to pay accumulated debts, or help them take up some unpaid bond; or to secure any member of the original syndicate for any money paid. On the contrary, the syndicate turned over to the public a company, fully incorporated—capitalization, one million dollars; par value of shares, one dollar each—ready to issue stock, with all demands paid to date. Leases for four thousand five hundred acres of coal lands, and \$2,500 in cash on hand. The public were at that time offered the opportunity of purchasing shares at twenty-five cents per share, non-assessable and fully paid up, on calls of five cents per share per month, with non-forfeiture clause; and notwithstanding the untiring efforts of many narrow-minded, jealous people against them, the company succeeded in selling about twenty-five thousand shares at this price. Then they purchased the township of Copperfield, and what was then known as the "Lamont Ranch," which was platted, and amalgamated with Copperfield under the name of the Similkameen Valley Coal company, limited. All of which goes to show the faith of the promoters in their undertakings, as well as giving the stockholders the benefit of their ready cash. The company's stock was then advanced to 35 cents, still on calls of five cents per month; and about forty thousand shares were sold at this price. The company then secured a report from Mr. W. Blakemore, which was sufficient in itself to guarantee, coupled with the work already done, for a further advance of the company's shares to 50 cents still on calls as above. At this price, the faith of the promoters was sufficient in itself to guarantee, coupled with the work already done, for a further advance of the company's shares to 50 cents still on calls as above. At this price, the faith of the promoters was sufficient in itself to guarantee, coupled with the work already done, for a further advance of the company's shares to 50 cents still on calls as above.

The company now feel justified in advancing their shares to one dollar, from the fact of their having recently secured leases and titles to five thousand six hundred acres of what is known as Collier's Gulch coal lands. This coal is known to be of the highest quality and of the best kind for domestic and industrial use. This property cost the company \$1,300 in cash, and thirty thousand shares of treasury stock.

Work has been received to the effect that the company's engineer, Mr. W. Blakemore, has shipped a diamond drill from New York to the company's property. The mining operations of the company are now under this gentleman's charge.

As lots are now selling in Ashnola, it is estimated that the company will sell at least two thousand lots during the present year. The completion of the electric light plant for the new town, and the installation of waterworks and power plants has already been arranged for, and will be supervised by a competent engineer. When completed the company's power plant will be sufficient to supply all needed power for the adjacent mines. The Tillman Lumber company are already on the ground doing business, and are under contract with this company to furnish them fifty thousand feet of manufactured lumber per month, and a second company are now negotiating with the directors of the Similkameen Valley Coal company for a second mill. This lumber will be required for mining purposes, and the erection of some twenty cottages for the use of the employees of the company. In addition to the above several business blocks are already arranged for by business men.

The Toronto company was purchased land from the original syndicate, promoters of the Similkameen Valley Coal Co., are commencing the development of their property concurrently with the
